About me

I'm a passionate Web Developer with over 2 years and 8 months of experience in building dynamic, user-focused websites and web applications. Skilled in PHP, CodeIgniter, WordPress, HTML, CSS, and currently exploring React to expand my front-end capabilities. I enjoy turning ideas into clean, functional, and visually appealing designs, often blending creativity with logic. With a keen eye for detail and experience using Photoshop and Canva, I love crafting digital experiences that not only work seamlessly but also look great.

Experience

Web Developer

Feb 2023 - Present

Vellore Institute of Technology - VIT, Vellore

- Developed and maintained dynamic websites and web applications using PHP, CodeIgniter, and WordPress.
- Created responsive front-end layouts with HTML, CSS, and JavaScript, ensuring optimal performance across all devices.
- Designed banners, layouts, and posters using Photoshop and Canva.
- Currently enhancing skills in React to integrate modern UI components into existing PHP applications.

Projects

Visitor Management System

Developed using PHP CodeIgniter 3

- Designed and developed a complete Visitor Management System to register, track, and manage visitor entries and exits.
- Used MySQL for secure data storage and retrieval, ensuring data consistency and performance.

VIT, UHET, Blogs, Gallery, VIT Online, Bschoool and Intranet

Developed using Wordpress

- Built and maintained multiple institutional and content-based websites using WordPress.
- Improved website performance, SEO, and UI consistency across all sites.

Conference Websites

HTML, CSS, Bootstrap

- Developed and deployed several conference and event websites using HTML, CSS, and Bootstrap.

Graphic Design Works

Photoshop, Canva, PosterMyWall, Freepik

- Designed event banners, posters, YouTube thumbnails, event backdrops, and flyers.
